

January 10, 2011

Dear Kitty,

Please accept our heartfelt gratitude for your help in selling our mother's home. You worked tirelessly and with unfailing dedication throughout this often difficult and complex process. Your people skills and factual knowledge of the real estate market (both local and national) are extremely impressive. You spent untold hours dealing with the often challenging details and negotiations surrounding this sale. You personally made sure that everything required was in order and communicated to all involved parties in this transaction. You offered expert advice and much "hands on" assistance.

Throughout this stressful and emotional process you were our friend who provided unending (and much needed) understanding and support. You are professional, efficient, and as "close to perfect" as any real estate agent could ever hope to be.

We highly recommend you to anyone seeking an accomplished real estate agent and tell all of our friends, acquaintances and others about you. We feel so fortunate to have worked with you and, again, thank you from the bottom of our hearts.

Sincerely and best regards,

Virginia Jolley
